Finally, it is time to put the snowblowers away and take the agricultural products and dump trailers out.

Soon will come the heat, the sun and the days that lengthen. While waiting for the summer to settle down, why not take the time to read a little bit about the Pronovost news.

Tips and tricks, news and contest are in the spotlight on this second edition of our newsletter.

Tips and tricks

The snow season ends and the farming season begins. In both cases, it's time to do your maintenance. So here are some tips to properly maintain your machine.

- Wipe off all grease fittings with a clean cloth before adding grease in order to avoid injecting dirt or sand.
- Repair or replace broken fittings.
- Lubricate all grease fittings every 20 hours of operation.
- Disassemble, clean and grease the hub roller bearings once a year.
- Check the tightening of all nuts once a year.
- Check tire pressure every 50 hours of operation. Adjust according to the recommendations written on them.

Keeping your equipment clean is a good habit.

Other small tips, always have in stock some important parts like:

- Ball bearings
- Solenoid valves
- Drawbars
- Shear bolts

Did you know that in addition to snowblower parts, Pronovost has a vast inventory of mechanical components for all your projects such as: bearings of all kinds, chain, tooth wheel, pulleys and belts.

Innovations for 2019

Each year, Pronovost sends its dealers a questionnaire to collect the opinions and recommendations on our products. This allows us to orient our choices regarding the characteristics as well as the extent of our product range.

This year, several modifications will be brought in our range of winter products. Here are a few:

- New high-performance snowblowers for the Gr I (45 to 65 hp), P-82127-HP replacing the P-720-8028.
- New chute more robust on Gr I.
- Chute with double greasable hinges CPUSI-4872 for PUMA-48-54-64-72.
- Non-inverting PTO dropbox option on the Gr I snowblowers.
- Rubber deflector option for Gr I, Gr II and Gr III.
- P-INV-74 and 80: Addition of standard skid shoes.
- P-98134(TRC)-GV Back to conventional chain idler.
- Addition of PGS-1080TRC and addition of rubber deflector above the auger in this category.
- Addition of PGV-120137TRC.
- Addition of a storage support on the Sand & salt spreader.
- Chute PSIG-7486 now with adjustable stoppers for greater rotation angle.
- Hose kits with sleeves and couplers ready-to-install now available on demand for all our models.

For the Cyclone:

- Addition of proximity indicators.
- Stationary door option (available when there's no hydraulic doors).
- Button kit and wire harness for diverter operation (included in hose kits with diverter).
- Improved access to shear bolt and key for the bolt alignment included.
- C8026 with semi-waterproof guards to protect the chain and conventional chain idler.
- Color option available in pre-season order (including Pronovost red)
- C9228 addition of rubber pads on the auger rotor to increase performance.
- Chute, now with adjustable stopper for greater rotation angle.

PRONOVOST CONTEST

We are looking for pictures of Pronovost products. Do you have beautiful photos and want to see them in our publications, in our brochures or on our website? Share them and get a chance to win a Pronovost coat and cap.

We would like to see your Pronovost in action.

To participate in our contest, nothing more simple:

- Like our Facebook page
- Share with us in the comment your most beautiful picture featuring a Pronovost product.

or

- Add us on Instagram
- Share your most beautiful picture featuring a Pronovost product by identifying us in the picture and add the #Pronovost.

2 winners will be announced. One on our Facebook page and one our Instagram!

End of competition: Friday, April 26, 2019

Results: Monday, April 29, 2019

On your marks, ready, photograph!

By sharing a picture in this contest, you consent to Pronovost using your picture in various marketing and sales media. This includes, but is not limited to: our brochures, our price lists, our website and our publications on our various social networks. If your picture is used, a copyright notice will be given.

* This contest does not apply to employees and immediate families of an employee.

Pronovost on all the continents

During the month of February, the Hebdo Mékinac / Des Chenaux published an article on the Machineries Pronovost.

This interesting article relates the adventure of the company internationally. Indeed, we can find the Machineries Pronovost and its products on six continents.

The full article is available on the website of Hebdo Mékinac / Des Chenaux.
